Hey sorry for the delay, but the answer is that I've had issues, including delays in uploading and/or processing, on at least the following cases:

U.S. v. Epstein, 2018R01618

Hey -

A few follow up questions:

- 1) Which investigations have you had problems on?
- 2) In terms of delays, is it your sense that the delay is with PAE loading, or is it an organizational issue at the USAO?

Thanks,

Subject: Lit Support / Relativity / PAE Issues

Hi friends,

I have been volunteered as tribute to participate in the office's working group on lit support / Relativity / PAE issues. So that I can raise all the issues our unit has encountered, would you please shoot me an email if you have had any issues with, or have any suggestions regarding: loading search warrant returns or document productions to Relativity; problems with how those materials are loaded, including folder organization, missing materials, delays in uploading, or potentially privileged materials being released too soon or not being released after being cleared; communication issues with PAE or our office's project managers; the tools we have in Relativity such as the lack of deduplication or spam removal; saved searches that are set up for you; or discovery productions coming out of Relativity, including missing documents or

materials not being stamped. Just to be clear, I'm not asking about IT issues like the speed of the internet or the shared drive.

Thanks!
