You guys have thoughts on this? As [REDACTED] knows, OLA's general guidance is either not to respond at all, or to respond by parroting back a combination of the question and stuff already in the public record. Here's my initial effort at mapping that guidance onto this question:

I think they would like a draft response sometime today. I don't think it's necessary to loop in OLA, but I would draft our response conservatively in accord with their past guidance. Geoff

We can put something together - do you have a sense of timing/deadline?

Also, for requests made directly to us, we have been looping in OLA which typically wants to be involved and has pretty strong guidance on what, if anything, we should say. I don't know if that's appropriate here given that the request was made directly to OAG, but just wanted to flag.

Geoff: Please see question 4 in the attached letter. I'm not sure exactly what he's asking but can you please provide a preliminary response to Question 4.

Thanks.
