Ok, working on it. Just to confirm, create a report that ONLY includes the below files?

Subject: Epstein devices

Hi ██████████ ,

Could you possibly help us with creating a report today? Apologies for asking, but I've not been able to generate the report on my end after reviewing items. This would be a huge help, so thanks in advance.

The device is saved here—I think all we need is to mark the files (in the recordings folder) and generate a report containing those files.

████████████████████████████████████

Here is the list of files for the report – all of the files are in the Recordings section:

New Recording 22
New Recording 57
New Recording 32
New Recording 14
New Recording 12
New Recording 10
20181126122915
20181016192522

Thanks!!
