Sounds good—we'll make sure these files are included in the production. And I think it should work to get all of the Responsive – Confidential files uploaded to the shared once we've checked them all; we'll keep you posted if it seems like the materials overall will be too large to load or if other issues come up.

Thanks

[REDACTED]

I ran out of space on my desktop, so I went ahead and loaded the Responsive – Confidential photos and videos from device NYC024362 to the share drive. I've saved them here: <\\Usa.doj.gov\cloud\NYS\StAndrews\Shared\USvEpstein-2018R01618\Investigation\Confidential Images & Videos from Epstein Devices in NY & VI\NYC024362 Responsive Images>  
[CONFIDENTIAL ONLY](#)

Would you please make sure all of these files are included with the production of Responsive and Confidential photos and videos? And if it's doable, my preference would be to save all of the Responsive – Confidential files from these devices in the "Confidential Images & Videos from Epstein Device sin NY & VI" folder on the share, with a subfolder for each device, please.

Thanks,

[REDACTED]
