Subject: I am a Witness- from the 1990's

Hi,

My name is [REDACTED], [REDACTED] I met Jeffery Epstein and Ghislaine Maxwell

when I was taking a flight to visit a friend of mine and flying solo very young. (Sometime between age of 12 and 14.) I am [REDACTED] but will never forget the terrible meeting that changed my life forever. One of the worst experiences of my life.

I was on standby for a flight and given a seat before they were. They questioned the staff and Ghislaine made a particularly big stink as the flight was full and why did I of all people get a spot on the plane then. They then proceeded to sit close to me at the gate, fondeling each other while staring at me. I Was totally grossed out by them. I found it quite disturbing. But what's worse is that she managed to get a seat right next to me. She smiled a lot about this. I tried to be nice.

After the plane took off they switched seats and Jeffery right away began to hit on me. He started showing pictures to me of his home and material wealth. I told him "that's nice but I'm too young for you." And laughed. He pursued this by telling me I looked like I was in college. I told him "well thanks but I'm not." I did tell him my age and he appeared shocked. And then kept mentioning that it was a shame because I was so beautiful. He told me he could make me a model of I said I was in collage. I laughed and told him sorry but I'm not. But he didn't stop. He kept at it. He even grabbed my arm. I told him to stop. He didn't. I asked the stewardess for help and got no support. I told them that he switched seats with a women who must be his wife and to please ask her to kindly to switch back because he was harassing me. They wouldn't help me. They told me to just put up with it because it was a short flight. I told them that he's hitting on me and I am underage! They said that he was a powerful man with influence and that there was nothing they could do. I told them that my dad is a pilot and he has influence as well but they didn't seem to care and only wanted to use this against me to get my dad in trouble. I went right up to Ghislaine Maxwell

In her first class seat and bent down and told her that her husband was hitting on me and if she could please help me because I was very disturbed by this because I told him how young I was and he wouldn't stop. She got very angry and abusive towards me and told me that he was NOT her husband. And she scoffed and laughed at me and told me to go back to my seat. To get over myself.

I reached out for help from the planes authority figures. They did not protect me. I was being harassed as an under age minor. THEY sexually harrassed me as a team. I never felt so helpless and afraid in all my life during that "short flight". (It wasn't short for me!!!)

Ghislaine was his protector. She encouraged and helped him to hurt me mentally. And I know now that things could have gotten a lot worse if I was not in a public place at the time. I was hurt by not only them but by the airline for letting them get away with it. No one reported it to the police. I never felt so alone. So unsupported as a young girl. I can honestly say

that This experience left me with permanent damage. Ghislaine needs to be held accountable for her very clear part in the process of abusing girls. She was not innocent. She was in effect the one who was in control the whole time!
