Got it. We're still waiting on the production version from BOP, but I'll proceed once I get that. Thanks.

Thanks, [REDACTED] No issues on our end if his name is not on it (and probably don't even need to see it).

Quick check-in on the Epstein FOIA: there's an attorney visit room inventory log (with inmate names on it) that we previously withheld under 7(A) that the *Noel* team now thinks we can release with privacy redactions. It's one page, and there's no mention of Tartaglione there. I'm assuming (1) I could send this to you and (2) this can be released with no *Tartaglione* concerns because he's not on the document. But checking before I send it to you and/or it gets released.

Thanks,
