After defense requested that the video be preserved (unbeknownst to us), [REDACTED] had SIS save a copy of a few hours from 7/22 into 7/23. That video has been preserved. They gave us a copy on 12/20, but it didn't have the player we needed and [REDACTED] couldn't convert it for us. So we are waiting for them to get us a new copy with the player. We don't know what it shows yet, but SIS has confirmed that it works because they've seen it on their own systems. Will give you a copy as soon as we have it.

What's the latest on this, who has it, and what does it show? Thanks so much
