Embedded: RE:████████████████████████████████s.msg

I asked ██████. See attached. Odd that they didn't reach out to us about this.

I unfortunately am running out to a dinner right now – want to do 9:30 tomorrow so we have a little buffer time? And as a little background on our thinking in advance, see attached.

Could we do 10? Meeting is at 10:30. Or we can talk tonight. Thanks.

Hey ██████ wanted me to reach out to give you a rundown before you talk with ██████ tomorrow (just called you but your vm is full). Is there a good time? I should be generally free after 10, until about 3:00. Thanks!
