Dear Mr. Dean: Thomson Reuters News

I received your emails saying that the Jeffrey Epstein murder inside the Metropolitan Correctional Center in New York City, NY is a local news story and that the corruption going on inside our government and the courts with government employees, court employees and Judges goes on all over the place.

I contacted all my local news organizations and they told me to contact the larger National News Organizations because you have more money to do National News stories like the murder of Jeffrey Epstein and government employees and court employees writing all of the courts decisions, orders, search warrants, FISA warrants, arrest warrants and other court documents and either typing some Judges name to those court documents or forging the Judges signature to make it look like the Judges signature or just act for Judges.

Do you know someone I could contact that does news?

Yes, We have followed Epstein extensively, know tons on his background, and sourcing inside a group of contacts was able to stay out of the media, but who were very close to two decades.

Epstein is a huge blackmail jackpot, and Gislaine Maxwell may be holding the final stash to negotiate a plea. But what she may have is so toxic, the prosecutors' employers would probably say 'we won't touch this with a ten foot pole'.

As for his jail stay, we had expected he would be bumped off, when he was not kept in a more secure facility. That screamed that he had to be prevented from talking at all costs, even if that entailed great risks. and wondered how 'they' would not be exposed when they did, ie 'how could the guards hold up under the investigation, or really dare to goof off while guarding him.

Dear Mr. Dean: Thomson Reuters News

I received your July 11, 2021 email. Would you have time to review these attachments for a news story? I received a Civilian Crime Report from the US Attorney for the Southern District of New York Audrey Strauss to fill out and return to her.

Also I was inside the SHU section of the Metropolitan Correctional Center in New York City, NY where Jeffrey Epstein died. Would that be anything you would want on why the guards turned both the cameras and backup cameras off and why the guards didn't check on Epstein every 30 minutes?

This is too narrow a topic for us. This stuff goes on all over the place. It's a local news story.

The world is filled with huge corruption which takes up all of our resources.

Good luck.

Attorney David Schoen February 2, 2021

Schoen reportedly believed that convicted sex offender Jeffrey Epstein didn't commit suicide in 2019, because he met him in jail earlier the same day to discuss Schoen leading his defense team. "The reason I say I don't believe it was suicide is for my interaction with him that day. The purpose of asking me to come there that day and over the past couple of weeks was to ask me to take over his defense," Schoen stated.

"Richard, these people will kill you, you don't go into the warden's office, these people will kill you." "They will come into your room at night when you're sleeping and beat you over the head with a fire extinguisher and kill you and then they will throw the fire extinguisher into one of our rooms and blame one of us for killing you." "You don't go into the warden's office."
