Hello,

The screenshots are referencing a different case but the process is the same.

Here are the steps to create your tags:

1. Open up any document
2. At the right of the screen click on edit
3. Under the field you want to add the tag (for this case all tags are under issue designation) find manage and click on it. 
4. The following window will appear:

[See All Choices](#)

Manage Choices (26) ?

[+ Add Choice](#)

[+ Add Many Choices](#)

Let's make this an Issue designation tag, please. That's where all of our other tags review tags are currently located.

Thanks,

Do you want to create a new field that says “Not Epstein Related” or do you want to add this to an existing field (ex. Issue designation). Please note that if you want to add this to an existing field that such as issue designation you should see something that says manage and you can add this tag to that field as well.

Thank you.

Hi [REDACTED]

Thanks for your help with this review project. For this batch only, could you please add a tag that says "Not Epstein Related"? Thanks.

Hi ██████████,

We're hoping you can clarify for us the contents of two separate batches on the USvEpstein Relativity database. Batch 003 – USAO-SDFL appears to reference the documents we've been talking with ██████████ and ██████████ about. Batch 004 – OPR Materials appears to reference the ██████████ emails that we received from OPR and that you ran the attached search terms through. Is that correct?

Thanks very much,

██████████
