Risk of Sexual Abusiveness

During the intake screening process, for Inmate Epstein, based on the documentation available at the time of the screening, and Inmate Epstein's self-report, he was identified as being at risk for sexual abusiveness due to previous perpetration of sexual abuse in the community or in an institutional setting, as evidenced by the following objective criteria:

- Having a history of prior institutional violence or sexual abuse perpetration
- Having a history of prior sexual abuse perpetration in the community
- Having prior convictions of violent offenses

As required by P5324.11, Sexually Abusive Behavior Prevention and Intervention, Inmate Epstein was seen by Psychology on today's date to assess his risk factors for sexual abusiveness. At the onset of this clinical contact, the inmate was informed about the BOP requirements regarding PREA. Inmate Epstein indicated he understands the institution's policy against engaging in sexual behavior. His risk factors for sexual abusiveness were assessed and include:

- History of prior sexual victimization in prison
- History of prior prison sexual predation
- History of head injury with loss of consciousness
- History of childhood psychological, physical, sexual abuse
- Witnessed family violence
- Antisocial Personality Disorder traits of irritability/aggressiveness and recklessness
- Hypersexuality (defined by eight or more orgasms a week prior to prison)
- Hypermasculinity
- Other:

Based on this clinical assessment, the inmate is considered to be at:

- Low Risk of Abusiveness at this facility** (Note: Even though this inmate is judged to be at low risk of sexual abusiveness, an unforeseen change in risk factors may significantly alter his risk level.). Programming recommendations included sex offender treatment. Inmate Epstein declined programming recommendations. The inmate understands the procedure for contacting Psychology for routine or emergent services.
- Moderate Risk of Abusiveness.** The Unit Team and Correctional Staff have been notified regarding Psychology staff's recommendation that he not be housed in a cell with any inmates identified as at increased risk for sexual victimization. Psychology also recommends a greater level of supervision regarding his work and education assignments. Programming recommendations include XXXXX. Inmate =inmateLastName is agreeable to/ declined programming recommendations.
- High Risk of Abusiveness.** It is recommended this inmate be housed in the Special Housing Unit in accordance with P5324.11 to "keep separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive" until Correctional Services and Correctional Programs staff can assess his appropriateness for general population at this facility. This inmate should not be housed with any inmates judged to be at an increased risk for sexual victimization. Programming recommendations include XXXXX. Inmate =inmateLastName is agreeable to/ declined programming recommendations.

Comments

This writer consulted with Dr. [REDACTED] Central Office, regarding inmate Epstein. Inmate Epstein has various risk factors for suicidality including a high profile case with media attention, sex offense charges, pre-trial status, and a court proceeding today which could potentially be giving him bad news regarding his legal situation. As such, when inmate Epstein returns from court, R&D staff as well as Lieutenant's have been informed to immediately notify the psychology department. If he returns after duty hours, the aforementioned staff were instructed to notify the on-call psychologist and to place inmate Epstein on a watch status until psychology can conduct a thorough suicide risk assessment.
