In fairness, I'd also like to know what [REDACTED] made of the Satanic child-murder evidence . . .

Seriously though, I can't imagine the volume of the craziness you guys are getting, and it's horrible online – very hard to understand what causes people to believe such insane stuff. Really depressing, and particularly for random folks who are targeted by it at unbelievable levels of volume – Chrissy Teigen etc. People who have nothing to do with the case whatsoever, but there's nothing that will ever convince the conspiracy theorists. Very unfortunate.

Just so you get a flavor of what some of the nuttier conspiracy theorists are saying. This guy is a real nut. In prior emails he "demanded" that you "put Maxwell on the stand" at her arraignment and ask her about the killing of babies and drinking of their blood in Zionist satanic rituals covered up by Mossad, MI5, and the CIA!

Subject: GHISLAINE MAXWELL TRIAL DATE???

Dear [REDACTED]
Could you please inform Judge Nathan that I and many others are obviously delighted to hear that she denied bail to Ghislaine Maxwell. But why do we have to wait another entire year before the trial??

If you look at the YT public comments people are already saying something smells about this whole business.

To give just two examples: a gentleman calling himself Gordoskin wrote "No mugshots, no videos, nor any proof that she is even in custody.. something stinks". Then someone called Sansara follows this up by saying "She is not going to be alive in a year's time.. the Judges should know that, unless they are part of the plot too"

After what has gone before the public now has absolutely no faith or trust in the American Justice system.

And can you blame them? After Epstein? And Acosta?

Someone really does need to make it clear to Alison Nathan that she herself, and the justice system she serves, are also on trial. Maxwell and Epstein were clearly mixed up with military intelligence and they could have concocted this entire thing just to mislead the public.

A few crummy sketches of what we are being told was testimony via video link simply will not suffice in this case.

Everyone I know is pushing me, as a Writer, to eloquently demand absolute proof that this whole arrest/incarceration is not simply another CIA scam. Will Judge Nathan provide it? And will she accept that the Lawyers, after so much preparation already, must be ready to go to trial right now? Tell the Judge she simply has to re-schedule for no later than the end of September. And if Maxwell is still alive even by that time I will be amazed.

yours sincerely

Francis Richard Conolly

p.s. I'd still like to know what [REDACTED] made of the Satanic child-murder evidence provided by Ronald Bernard and Alissa Dearman??
