Thanks, [REDACTED]. That is helpful, and I'll flag for him that some of the allegations that I take it she has not confirmed to us? For example, the frequent flights with Maxwell on a jet is something in the complaint that I'm sure he will take interest in - she has told us that is untrue?

And unfortunately, I don't know much more - he just asked for it. But it would not surprise me if he is looking for additional factual allegations, like the one noted above, that we could add to the Indictment.

Attached. Please note to him that the complaint contains some inconsistencies both with incontrovertible facts (for example, her age when she met Epstein) and with her descriptions to us (for example, a vague reference to threats, references to frequent flights that both [REDACTED] and Maxwell took on the jet, and certain references to her age at the time of certain events).

Do you have any sense of what he's looking for (or at) in particular?

Do you guys have a copy of her Jane Doe civil complaint? If so, [REDACTED] would like a copy, so would you mind sending on?
Thanks
