Hey, thanks as always, and I *think* my questions to [REDACTED] just now should cover all this, but let's keep in touch. Really appreciate you helping keeping us organized on this stuff – would much rather do it now than try to figure out what's messed up while we're trying to prepare for trial.

Just finished updating everything. [REDACTED], [REDACTED], and [REDACTED] were all listed as attached but I couldn't find them anywhere in the documents (apart from [REDACTED]'s ID). Additionally, for [REDACTED] the only notes included was a receipt for property. Unsure if that constitutes interview notes.

Everything else is updated on the tracker.

Could you please save these to the Epstein share drive with our usual protocols, and also update the spreadsheet based on the below / attached? For interviews where [REDACTED] indicated there are no notes, please put "N/A (no notes)" in the relevant spot. And then if you could let us know what (if anything) either has a discrepancy or is still outstanding, we'll make sure everything gets fully tracked down (and tracked).

thanks,
