Thanks ████. I think you forgot to attach the STR hits. Mind resending that attachment, please?

Hello ████████ ,

The following is regarding the batches:

BATCH003 - USAO-SDFL is all of the data from the following folder:

BATCH004 - OPR Materials is from the following folder and attached STR Hits:

Please let me know if the batches need to be adjusted.

Thank you.

Hi ████,

We're hoping you can clarify for us the contents of two separate batches on the USvEpstein Relativity database. Batch 003 – USAO-SDFL appears to reference the documents we've been talking with ████ and ████ about. Batch 004 – OPR Materials appears to reference the ████ emails that we received from OPR and that you ran the attached search terms through. Is that correct?

Thanks very much,

███████
