We think the Paris report is inaccurate, but are not positive. We'll see. Yes, [REDACTED] would be good to do!

That's exciting about Maxwell. Will we be able to get her or is she holed up in Paris? Sorry about your foot! All good here. I'm up in Massachusetts at my parent's house, which has been helpful b/c they are helping with the kids a lot. [REDACTED] has been very busy – seems like the unit least susceptible to COVID related delays! Excited to charge [REDACTED] soon, though, if we can get [REDACTED] in one more time

I'm good. Obviously a chaotic few days, sad in some ways, but happy we carry on under same general leadership. We are indicting Ghislaine Maxwell next week. I spoke to [REDACTED] and he seems to be holding up fine. I broke my foot a few weeks ago! Have been in a boot, hopefully only a few weeks more. How about you? What's going on?

I don't, sorry. How are you holding up? All good in [REDACTED]

Hey – do you know off top of your head any compassionate release decisions where there had in fact been positive inmates in a defendant's unit (but the defendant did not get it and doesn't have a CDC-recognized risk factor)?
