GM in red leather coat. I went on a bathr break... I thought they were spying on us... i kept seeing them around... I took picture of them "spying" on us... something to be said about that strange feeling. I typically made 2 copies of pics. One for me and one for Len. I bet Len has the whole series. I think the girl with long blond hair is [REDACTED]. I was at a hotel with them when she came out of elevator photographers took pics and I was told she was so and sos girlfriend and a famous author of children's books. I'm guessing they were all there. I think that was New Orleans the jimmy saville event. That trade show was during Marci Gras.
