This specifically includes some of the details we suggested adding that they took out, including that she met her at a summer camp. If [REDACTED] herself is comfortable making that allegation, it's hard to understand why we couldn't/shouldn't.

Attached. Please note to him that the complaint contains some inconsistencies both with incontrovertible facts (for example, her age when she met Epstein) and with her descriptions to us (for example, a vague reference to threats, references to frequent flights that both [REDACTED] and Maxwell took on the jet, and certain references to her age at the time of certain events).

Do you have any sense of what he's looking for (or at) in particular?

Do you guys have a copy of her Jane Doe civil complaint? If so, [REDACTED] would like a copy, so would you mind sending on?
Thanks
