Hi [REDACTED],

We're hoping you can clarify for us the contents of two separate batches on the USvEpstein Relativity database. Batch 003 – USAO-SDFL appears to reference the documents we've been talking with [REDACTED] and [REDACTED] about. Batch 004 – OPR Materials appears to reference the [REDACTED] emails that we received from OPR and that you ran the attached search terms through. Is that correct?

Thanks very much,

[REDACTED]
