So You've Been Reading all the Jeffrey Epstein Stuff : Horny?

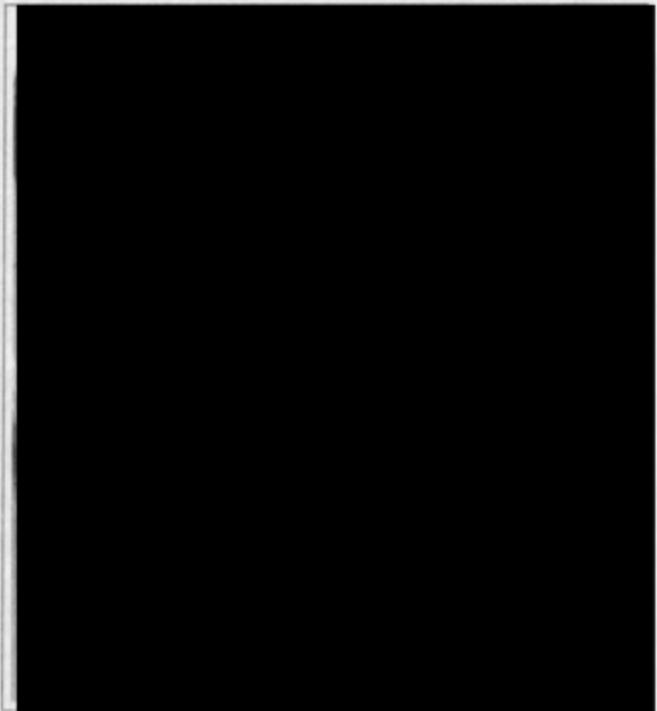

The Epstein coverage is way overblown at Jossip where they really love "rape". And they complain a lot that the New York Times still hasn't picked underage 3-times-a-day sex massages and all that.

Epstein must be the news that's "not fit to print". Nonetheless, we here a establishment are done with the Epstein coverage. We like him and we t should give him a break!

One last thing- DealBreaker asked us who the Nobel Prize Winners and Epstein party I wrote about. I'm game. Here it goes:

The Nobel Prize Winners- two of them- and my god were they horny- we [REDACTED]. Mathematician [REDACTED] was there, along with even [REDACTED]. And of course [REDACTED]- man, that guy has a sexua wouldn't believe.

Hehehe...

And one last, last thing- all this coverage likely brings up a practical prob

guys. While I'm sure they don't appreciate the potentially-underage aspect of the operation, you can't help but get a little hot and heavy reading all this about girl massages.

So here are some quality sites you can turn to if you need an outlet for your excellent teen mega-site 18 Years Old, the new 18 Magazine, new blond NastyaGirl, and the eastern European sites Teen Sex Moves, Club Virgi TeenCoreClub.

DealBreaker.com and More Jeffrey Epstein

DealBreaker.com... I honestly didn't know that it existed until today. My friend never claimed to have done any market research before embarking on this, he just assumed that other finance guys are horny. Like I am. And that they do Facial Abuse and Ghetto Gaggers and Public Invasion and Share My Cc too, for the ones who like "barely-legal" girls (and no- we are squarely in the **financio-ephebophilia** here- or at least not until later in this post...)

Anyway, DealBreaker.com is awefully hard on my friend Jeff- here, with this here. again here, one more time for good measure, and finally even a picture story at all!

Gawker.com is also tearing my friend Jeff to bits, and has mixed him up with underage massage exposition with Ron Burkle in a way that only a hefty lawyer. Luckily they have yet another page that runs down a factual comparison "Shady Billionaire Rundown" if you will.

All these people are, I suspect, just slightly jealous that they were never invited to the party. Being one of those privy to just such an event- barely-legal (I hope I can say that I understand why. There really is nothing else I have ever done. Nobel prize winners, a bunch of people intimately involved in ... cough cough! and cough! Prediction Company cough! cough!, Jeff himself, and really don't matter- all surrounded by 18-, 19-, and 20- (again, I hope!) young european girls, frolicking with them, and then proceeding into one big orgy strikingly similar to Eyes Wide Shut. Without the costumes, that is.

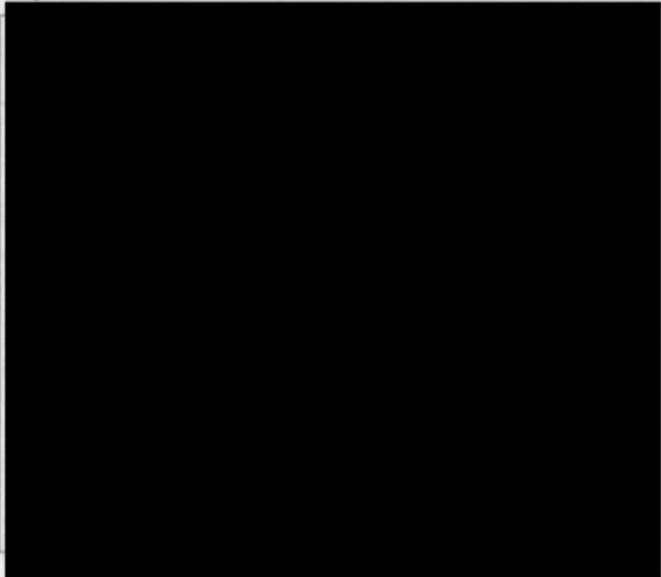

Bill Clinton was not there. Just to be clear.
