Thanks Wendy. We'll forward to the FBI, per our practice in this case of passing along all civilian communications regarding Epstein.

Subject: Epstein Victim

I have information on the Jeffery Epstein Case! It has been known several women in our area have been drugged taken to an unknown location for days at a time . These women are willing to testify to what happen to them.

I am extremely reluctant to tell you my person experience, however, at the blessed age of 41 I brought my two year old into this world. My world became estranged in 2013 . These life events would unravel a world into Corruption that only pure honest accurate data could solve. [REDACTED]

Jeffery Epstein used Bitcoins Spyware to monitor the victims of his trafficking ring. These devices will prove to be unsafe , unregulated and very profitable on the stock exchange. Espstein used a program similar to the Watergate Scandal spy technology to laundry money directly from the Federal Reserve. These so called "Miners" or "Minors" are 0his soon to be victims.

His attempt to create the perfect race could havevstarted with my daughter during that horrible night , I remember bits and pieces . This all started 5 years ago upon someone revealing I was the child from execution during the Argentina Dirty War. I would embark on a journey into a world of corruption , deceit and lies.

I am unsure what I need to do at this point. My world has forever changed . Right now I am at risk of Pizzagate which happening locally along needing protection . My daughter's safety is first priority and concern right now.
