Sure, good idea. Defer to you on what the tag should be called.

Thanks for running this down. Before we dive into batches, I was wondering if we should add an additional tag for this set – something to reflect that the document/email has nothing to do with the Epstein case. Would be potentially helpful in case we ever need to re-review some of the designations.

Confirmed, this is the updated list of search terms. So Batch 4 is indeed the one we need to review.

Thanks [REDACTED]. I think you forgot to attach the STR hits. Mind resending that attachment, please?

Hi [REDACTED],

We're hoping you can clarify for us the contents of two separate batches on the USvEpstein Relativity database. Batch 003 – USAO-SDFL appears to reference the documents we've been talking with [REDACTED] and [REDACTED] about. Batch 004 – OPR Materials appears to reference the [REDACTED] emails that we received from OPR and that you ran the attached search terms through. Is that correct?

Thanks very much,
