Reg #: 76318-054

**Type of Housing:** SHU- Administrative Segregation  
**Cell Accommodation:** Double-Cell

**FINDINGS**

This assessment and the resulting recommendations are based on the following sources of information:  
Clinical Interview, Medical Record, Psychology Data System, Sentry

**Reason for Referral**

The On Call Psychologist, [REDACTED], had been contacted by the Operations Lt. at about 2 AM on 7/23/19 to inform her that Mr. Epstein was being placed on Suicide Watch because he was found with a string around his neck. Mr. Epstein was seen by this writer for a Suicide Risk Assessment at about 9:10 AM on 7/23/19.

This note is being entered at about 3:35 PM on 7/23/19.

**Mental Health History**

According to a Suicide Risk Assessment dated 7/09/19 by [REDACTED], "Inmate Epstein denied any history of mental health treatment, either on an inpatient or outpatient basis. Inmate Epstein denied any treatment in the past or present with psychotropic medication. He also denied any acute mental health symptoms at this time."

**Self-Harm History**

According to a Suicide Risk Assessment dated 7/09/19 by [REDACTED], "Inmate Epstein denied any past or present suicidal ideation, intention or plan. He denied ever engaging in any suicide attempts or self-injurious behavior in the past."

**Substance Abuse History**

According to a Suicide Risk Assessment dated 7/09/19 by [REDACTED], "Inmate Epstein denied any alcohol or substance abuse. He said it is well-known that he does not even drink alcohol."

**Current Problem**

Earlier this morning Mr. Epstein was found by SHU staff in his cell with a string loosely tied around his neck. It is unclear at this time if Mr. Epstein had placed the string around his own neck.

When Mr. Epstein was asked by this writer how he ended up on Suicide Watch, he denied remembering. He stated he got a drink of water last night in his cell and went back to bed. He said the next thing he remembered is hearing himself snore. He said he wants to know why he is on Suicide Watch. He was informed that staff stated he was found in his cell with a string on his neck. According to Medical records, he had been seen by Medical for this and had a rule out of self inflicted injuries.

When this writer reviewed the Staff Suicide Watch Log, it noted that Mr. Epstein told the staff watching him that his cellmate tried to kill him, which Mr. Epstein did not tell this writer when this writer interviewed Mr. Epstein. This writer was not able to ask Mr. Epstein about this, since Mr. Epstein was now in Legal. The Captain was notified about this notation and the Captain stated they were already aware of this statement.

**Current Mental Status**

Level of Consciousness: Alert and Oriented

Psychomotor Activity: Normal

General Appearance: Normal

Inmate Name: EPSTEIN, JEFFREY EDWARD  
Date of Birth: 01/20/1953 Sex: M Facility: NYM  
Date: 07/23/2019 10:09 Provider: [REDACTED] PsyD

Reg #: 76318-054  
Unit Team: 5

Thought Process: Goal Directed

Thought Content: Normal

Current Mental Status: He exhibited a neutral mood with a full range of affect. His speech was logical and coherent, with no loosening of associations or tangential, circumstantial or irrelevant speech. Auditory and visual hallucinations were denied, and delusions were not elicited. He did not engage in any bizarre or inappropriate behavior. He denied current suicidal or self harm ideation and he agreed to immediately tell staff if he starts to have suicidal or self harm thoughts. He was future oriented. He does not appear to be an immediate danger to self. He denied thoughts of hurting others and he agreed to tell staff if he has these thoughts.

#### **RISK AND PROTECTIVE FACTORS ASSESSED:**

This writer screened the inmate for a variety of empirically validated factors commonly associated with risk for self-harm and suicide.

The following **STATIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: High Profile Crime, Lack of family connections, Sex offender status

The following **DYNAMIC** risk factors were assessed to be present and increase the inmate's risk for engaging in suicide related behaviors: Current physical pain

The following **PROTECTIVE** factors were assessed to be present and may decrease the inmate's risk of suicide: Able to identify reasons to live, Adequate problem solving skills, Denial of suicidal ideation/intention/plans, Future orientation, View of death as negative, Willingness to engage in treatment

Risk Factors: He was found by staff in his cell in SHU with a string loosely tied around his neck, which Mr. Epstein stated he did not remember anything about. It is unclear at this time if Mr. Epstein had placed the string around his own neck or if someone else did. According to Medical, he had a circular line around the base of his neck, which he denied knowing how he obtained. He stated his throat hurts which was reported to Medical. He has a high profile sex offense case and recently was denied bail. When asked if he has any friends or family that are emotionally supportive, he stated he does not know what that means. When emotional supports were explained to him and then again asked if he has any family or friends that are emotionally supportive, he was vague and said he has a lot of people.

Protective Factors: He denied current suicidal or self harm thoughts or ever having these thoughts. He denied a history of self harm and suicide attempts. He denied a family history of suicidal and self harm attempts. He denied having any chronic medical conditions. He denied feeling hopeless. He denied a history of childhood abuse. He denied fearing for his safety. He denied feeling like a burden to anyone. He reported he is sleeping adequately. He stated he lives to have fun, to enjoy life, and to learn. He said his future plans include fighting his case and going back to his normal life.

Whereas, he is denying suicidal and self harm thoughts and has a lot of protective factors, he is denying that he remembers how he ended up on Suicide Watch and has marks encircling his neck. It is unclear at this time if he had placed the string around his neck or if someone else did. He will remain on Suicide Watch for further observation and safekeeping.

#### **DIAGNOSIS:**

No Diagnosis, No Dx - Current

#### **CONCLUSIONS**

**Focus of Session**

Inmate Epstein was seen for his psychological observation follow-up in attorney conference this afternoon.

**Subjective/Objective Presentation**

Inmate Epstein reported he has been consulting with his attorney most of the day. He elucidated concerns about his incarceration including not receiving his property yet in SHU, feeling cold in his cell, not receiving his Colace, not having enough water in attorney conference, and a desire to recreate in SHU." Inmate Epstein was also upset about wearing an orange jumpsuit and being treated like "a bad guy" when he did not do anything wrong in the prison. Custody and security concerns were addressed with inmate Epstein including why he has to wear his orange jumpsuit (due to his being housed in SHU). He requested that he be placed in a brown uniform during his legal visits. He was told his concerns would be addressed in the SHU meeting.

Inmate Epstein stated he is not having any current problems with his cellmate and indicated he ate bran cereal for breakfast and took a shower yesterday. He did not sleep well last night. Inmate Epstein continues to deny any suicidal ideation, intention or plan. He did not appear to be in any distress at this time.

**Intervention(s)**

Inmate EPSTEIN was provided with brief supportive interventions, CBT-based interventions, and psychoeducation regarding additional coping strategies. Inmate EPSTEIN was receptive to these interventions.

**Progress/Plan**

Inmate EPSTEIN was educated about both routine and emergency procedures for contacting Psychology staff. He was reminded of the self-help books and audiotapes available through the Psychology department. He will be seen next week after his bail hearing to assess his mental status and psychological stability.

**Focus of Session**

Inmate Epstein was seen today for a psychological observation contact in the hospital area by this writer.

**Subjective/Objective Presentation**

Inmate Epstein appeared well and it was noted in his log book and eating/sleeping chart that he has been eating his meals, sleeping, interacting with the inmate companions, and pacing in his cell. Today, he presented this writer with numerous concerns and requests. He stated he does not want to be housed in the SHU because he is not comfortable there; he wants to be single-celled if he goes to the SHU; he wants Colace, not the Ducolax he received from medical yesterday; he wants to be able to walk around and go to recreation; he does not want to wear an orange uniform to his legal visits because he is treated "like a punished inmate;" he wants a phone call before he leaves the psychological observation area; he wants a shower and towel; he would like to be housed in the cadre (5S) unit; and would like his property, paper, and a pen.

Inmate Epstein's concerns were addressed by this writer and it was explained to him he will not be single-celled or placed in a housing unit for safety and security concerns. His medical concerns (constipation) were discussed with health services as well as his desire to be placed on Colace. Inmate Epstein was provided a shower this morning.

**Intervention(s)**

Inmate Epstein was provided with supportive intervention and coping skills strategies today. He was receptive to interventions and was able to elucidate his various needs. He did not present with any acute psychopathology and continues to deny any suicidal ideation, intention, or plan. He is looking forward to his bail hearing on Monday but stated he is aware that even if he gets bail, it will take at least two weeks to sort things out so he can leave the jail.

**Progress/Plan**

Inmate Epstein is not in any psychological distress, does not present with any mental health symptoms or complaints, and is denying any suicidality. He appears psychologically stable at this time and can be released from the psychological observation area. Inmate Epstein will be housed in the 9S area with a cellmate. He will be seen again tomorrow by psychology to evaluate his mental status and psychological stability.

#### **RISK AND PROTECTIVE FACTORS ASSESSED:**

This writer screened the inmate for a variety of empirically validated factors commonly associated with risk for self-harm and suicide.

Of the **DYNAMIC** risk factors assessed, none were found to be present.

The following **PROTECTIVE** factors were assessed to be present and may decrease the inmate's risk of suicide: Willingness to engage in treatment, View of death as negative, Future orientation, Denial of suicidal ideation/intention/plans, Adequate problem solving skills, Able to identify reasons to live

**Comments**

This writer consulted with Dr. Robert Nagle, Central Office, regarding inmate Epstein. Inmate Epstein has various risk factors for suicidality including a high profile case with media attention, sex offense charges, pre-trial status, and a court proceeding today which could potentially be giving him bad news regarding his legal situation. As such, when inmate Epstein returns from court, R&D staff as well as Lieutenant's have been informed to immediately notify the psychology department. If he returns after duty hours, the aforementioned staff were instructed to notify the on-call psychologist and to place inmate Epstein on a watch status until psychology can conduct a thorough suicide risk assessment.
