██████ is aware and will address when he is done with elevator contractor, as we have one staff elevator down. Also, he says he hasn't received a weekly report regarding down cameras from SIS in quite some time, so I told him to scan through the whole system and provide me with a list of all down cameras. A list of down cameras was sent up with the camera project, but I need recently down camera information. We are still waiting on the vendor to fulfill the "equipment" portion of the camera project, as it was quite large, considering we are replacing existing and adding new. I will follow up once ██████ reports to me. Thanks!
