

~PREA:

MCC New York has available funding for added security measures. Funding can be used to add more mirrors and surveillance cameras in security-risk areas such as the hallway of Unit 2. For next week's security meeting, we will discuss in further detail more areas and equipment that funding can provide.

Current Status: A camera survey has been completed. A discussion of possible locations for new cameras in unsecured areas with the use of live feeds remains ongoing. We are also awaiting Central Office decision on funding.
