[REDACTED] and [REDACTED],

Not knowing how contracting going to handle this it is still budgetary. I will convert to GSA when it is the proper time.

Yes, I will remove the camera install and we just install the Nice part, will reduce the labor a lot. Going into a meeting for a bit will have it back to you by COB today. Is that okay?

Steve,

Thanks for the quote. Is there any way we can get a quote for the same equipment and we would do as much of the install as practical? We are trying to make this happen with the funding we have.

Thanks,

[REDACTED] and [REDACTED]:

Attached is the re-dated proposal, [REDACTED] I can take out the labor to install the cameras if you want and I still need to convert to GSA if you are moving forward. We would still install the Nice part.

[REDACTED]

I have had a lot of people that are confused by the Axis Q6000-E. This camera is not a PTZ camera, just a 360 with the option to add a PTZ camera if you want. Attached is the spec sheet for it. Let me know if you want me to change it out on the excel for a PTZ that is on the approved list.

Good Afternoon,

This is a preliminary list of the cameras that will be needed. I will be sending you more information.

Thank you,
