Executive Summary

The following is a brief overview of information contained in this CyberTipline report:

Incident Type: Child Sex Trafficking

NCMEC Incident Type is based on NCMEC's review of the report OR a "Hash Match" of one or more uploaded files. NCMEC may not have viewed all uploaded files submitted by the reporting ESP.

The National Center for Missing & Exploited Children (NCMEC) was incorporated in 1984 by child advocates as a private, non-profit 501(c)(3) organization to serve as a national clearinghouse and resource center for families, victims, private organizations, law enforcement, and the public on missing and sexually exploited child issues. To further our mission to help find missing children, reduce child sexual exploitation, and prevent future victimization, NCMEC operates the CyberTipline and Child Victim Identification Program. NCMEC makes information submitted to the CyberTipline and Child Victim Identification Program available to law enforcement and also uses this information to help identify trends and create child safety and prevention messages. As a clearinghouse, NCMEC also works with Electronic Service Providers, law enforcement and the public in a combined effort to reduce online child sexual abuse images. NCMEC performs its programs of work pursuant to its own private mission and independent business operations. NCMEC does not act in the capacity of or under the direction or control of the government or law enforcement agencies. NCMEC does not investigate and cannot verify the accuracy of the information submitted by reporting parties.

Section B: Automated Information Added by NCMEC Systems

Upon receipt of a CyberTipline report, NCMEC Systems may conduct automated processes on the information submitted in Section A. The information found in Section B of this CyberTipline Report has been automatically generated by NCMEC Systems. If the CyberTipline Report was submitted by a member of the public, Section B will be blank.

Explanation of Automated Information (in alphabetical order)

Geo-Lookup: When a Reporting ESP voluntarily reports an IP address for the "Suspect," NCMEC Systems will geographically resolve the IP address via a publicly-available online query. The results of this lookup are displayed.

Geolocation data is approximate and may not display a user's exact location. Please be aware that the geolocation information provided is not exact but is providing a reliable estimate of location based on IP address(es) voluntarily provided by the reporting ESP.

This concludes Section B

Section C: Additional Information Provided by NCMEC

Section C contains information collected by NCMEC staff based on the information electronically submitted by the Reporting Person, NCMEC Call Center or Reporting ESP. Section C may contain a variety of additional information, including data gathered from queries on publicly-available, open-source websites. Any queries conducted by NCMEC staff will be documented and any query results will be saved to the electronic filing system when possible. The CyberTipline cannot confirm the accuracy of information found in public records or whether the results are affiliated with any parties relating to this report.
