Date of entry 08/14/2019

On August 10, 2019 at approximately 1345 hours the reporting investigator met with EMPLOYEE 30 in an administrative office on the 9th floor opposite of the "L" tier. During that time a review of EPSTEIN's inmate records and activity conducted with the following information obtained:

- According to computer inquiries conducted at that time by EMPLOYEE 30 EPSTEIN had no phone calls on file with EMPLOYEE 30 found that inquiry to be odd because she was informed that EPSTEIN had in fact made a call on 08/09/2019. An inquiry of another inmate was conducted to ensure the database was operating correctly or that the inquiry was submitted correctly and phone records were revealed for the "test" inmate run. EPSTEIN's 08/09/2019 call was provided by BOP supervisor                      who also reported the call. EMPLOYEE 30 informed that the call was made on an unsecure line or "legal line" which is not recorded. EMPLOYEE 30 informed that the reason the call was placed in that manner was because EPSTEIN related to            that there was an issue with his phone account and he could not make a "normal call". When asked to utilize EPSTEIN's code to make a "test" call to determine the validity of the reason for the unsecure call, EMPLOYEE 30 informed that it would be impossible to test because the system is voice recognizable and voice activated. EMPLOYEE 30 further informed that inmates are given calls once per every 30 days. It is one call that may last 15 minutes max. All calls are made from within the cell and BOP personnel bring in a receiver or headset for the inmate to utilize.
- Records indicate BOP supervisor            notified EPSTEIN next of kin; Mark Epstein at #            at 1100 hours on 08/10/2019.
- Review of EPSTEIN's commissary yielded him to have funds in the amount of \$566.27 at the time of his death.
- EPSTEIN had no "authorized persons" or any persons listed on his call log.
- EMPLOYEE 30 was able to finally retrieve a record of EPSTEIN's last call. The call was placed on the unsecure line at approximately 1900 hours and was made to #           .
