Hi [REDACTED],

Looks like he was housed in SHU with a cellmate. Since his intake on 7/8/19, he received four suicide risk assessments. One resulted in a one day suicide watch following the likely attempt we discussed. After the one day on watch he spent a week on psychological observation. He was taken off psyc observation on the 30th and seen again on the 31st. On the first he returned from court and the USMS form noted suicidal ideation, so he was assessed for suicide again, but not placed on watch. He was last seen on the 8th, and no significant concerns were noted at that time. I anticipate we will have some recommendations from the reconstruction, but also see that the team in NYC was working to accurately assess and protect him while balancing that with his need for environment that promoted some quality of life.

I will have a team who can go on Tuesday. [REDACTED] will participate to offer her sex offender expertise and either [REDACTED] or [REDACTED] will take the lead. I will follow up with you as soon as I know.

[REDACTED]
