

Jean-Luc Brunel - Maitre ANNE CLAIRE LE JEUNE - AVOCAT

I would like to introduce you to Anne, who has been fighting for justice for Brunel's victims for many years. I understand that the case against Brunel in France is still ongoing.

It is widely reported that Epstein funded Brunel's modelling agencies, which were used not only as a recruiting strategy for new victims to be trafficked but also as a gateway for trading victims internationally and for obtaining visas for the victims. This was confirmed in a sworn statement by [REDACTED] Brunel's former bookkeeper, in 2010.

It would be a very good idea to connect the two of you ASAP as I feel there are many things to discuss regarding Brunel, which hopefully are mutually beneficial.

I researched over the weekend and found this article very interesting. I have attached it below,

What I find interesting is that all the modelling agency Brunel set up to traffic victims worldwide still operates. For example:

Karin Models - Paris (2.1km away from Epstein's old Apartment, sold last year, " The transaction between JEP, a French company owned by Epstein's estate, and Tucheve was completed on June 29, 2022."

Karin Models - Bangkok, Thailand

It is reported that [REDACTED] was sent to Thailand to pick up new victims for Epstein however luckily she managed to escape Epatein.

MC2 - Tel Aviv

MC2 Miami, which Brunel ran until 2019.

MC2 - New York was "sold" in 2017, where Brunel helped create two new ' boutique" modelling agencies,

*ONE MOTHER AGENCY - Ukraine

**IDENTITY MODELS - New York

I also know that Brunel was well known in the Escorting world as being one of the largest supplier of girls for sex work for decades. I strongly believe that in spite of Epsteins and Brunels death the trafficking has never stopped.

I hope that truth and justice finally prevails and look forward to hearing the outcome of you both connecting.

Kindest Regards

[REDACTED]

Why were Brunels' modelling agencies never thoroughly investigated, and why were they never shut down instead of being sold on, which means the agencies just changed ownership and continued? Who is now investigating these modelling agencies to ensure they are no longer traffic victims?

The modelling Agency books and "clients" never changed, just ownership.
