Yes I remember it, as you describe, very clearly I also recall that following your French tv interview where you were knocking at the door of the Epstein Paris residence and were crying at the antagonistical response you got from the staff behind closed doors . A short while later [REDACTED] was televised crying outside his New York premises. We both commented that may be yet another reason they asked you not to continue your support to the French authorities

Thank you so so much.

Peter this is really serious.

Can you please confirm in email to me that when i was contacted by the French  Lawyer to help with and testify in Jean Luc Brunel's trial once Sigrid and the attorneys prevented me from testifying.

Instead they sent [REDACTED] to testify and once again I was silenced.
