Again please can you confirm that it was Sigrid and the attorneys that prevented me from testifying in Jean Luc Brunels investigation and trial and [redacted] was sent in my place.

Yes I remember it, as you describe, very clearly I also recall that following your French tv interview where you were knocking at the door of the Epstein Paris residence and were crying at the antagonistical response you got from the staff behind closed doors . A short while later [redacted] was televised crying outside his New York premises. We both commented that may be yet another reason they asked you not to continue your support to the French authorities
