Subject: RE: Epstein Status

Date: Mon, 22 Jul 2019 16:48:43 +0000

Importance: Normal

1. Can you find out approximately how many images [REDACTED] thought might constitute CP? Are we talking less than 10? 100s? An estimate is fine. There were dozens of images of young looking girls posing naked, however, we have no way of knowing if they were actually minors. As of now we don't know the identities of any of the girls in the pics except of one, and she was around 17yo at the time.
2. Re the binders found in the closet....Were any of the names on the binders of MM based victims or were they only of the NY based victims? There were no known victim names on the binders, only one of the co-conspirators [REDACTED]. There were several names of girls on the binders that we believe are victims but we have not yet confirmed their identities. Were you able to tell where any of the images were shot? The girl who was around 17yo above said the pics were taken at the Island in St. Thomas. Do any of the images show JE touching the breasts of minors? No

Subject: Epstein Status

All,
Just want to make sure we're all on the same page after some calls yesterday. Sorry for the long email

SDNY agrees that we'll lead the forfeiture investigation and CART exam but they (using an outside vendor) will lead the financial analysis.

CART: We have OT approved for this weekend so CART is working to image all digital devices. Once we determine the scope of data, we'll have further discussions with SDNY re the use of FTK or Relativity. FYSA - They agree Relativity isn't good for image analysis but they're inclined to use Relativity for documents, emails, etc.

FORFEITURE: [REDACTED], you said your folks had already done some work on this. Obviously we'll need your team to coordinate with the case team and AUSAs. Thank you for your support.

FINANCIAL ANALYSIS: SDNY used an outside vendor on previous high profile cases so I thought that giving this to them was an appropriate compromise considering all the other issues we've had. [REDACTED] and I spoke about this and he understands this isn't meant to be any statement against [REDACTED] or his team. I think the documentation here is easy as the analyst will just throw everything in the FF subfile.

Over the past few days I've had conversations with [REDACTED] about potential evidence on JE's island. Considering what we have already (victim statements, open source reporting, seized images in NY) I thought we might have PC for a S/W. I spoke to CEOS and we might have it. They're going to talk more on Monday morning and get back to me. Yesterday evening I mentioned this to SDNY who said they were going to discuss it. They agreed we should be searching the island if we're assured of the PC.

CP CHARGE: [REDACTED] and I also discussed this yesterday. [REDACTED] mentioned there were some images (# unknown) that may represent a lascivious display of the genitals. Considering the pictures/paintings in the residence and his masturbation while laying next to minors in various stages of undress, I've pressed CEOs for their thoughts on a possible CP charge based on some of the full frontal images.

RESOURCES:

[REDACTED] and [REDACTED]...As we've talked about, please keep me posted on any needs you may have. SAC [REDACTED] has been fully supportive of our requests for OT and ASAC [REDACTED] assured me he'll surge additional bodies to the forfeiture investigation if needed. There are many tentacles to the investigation which are all pushing forward simultaneously. I want to make sure [REDACTED] and [REDACTED] don't get overwhelmed especially as they spend more time down in Florida and are off the grid.

VICTIM SERVICES:

[REDACTED] and I had a good conversation about the importance of tracking and servicing our victims (current total is 59). I think you all know this is of the highest priorities for me. I will tell you I've received calls from outside the FBI from some people who are concerned about this very issue. The case team must ensure they are over communicating with our VS(s), and/or VSD to ensure we have a VS at every victim interview and they should be on standby when we're interviewing someone who MAY be a victim. UC [REDACTED]...I heard we have a VS in Florida who is traveling 2 hours each way for our victim interviews. [REDACTED] and [REDACTED] are planning a week long trip to Florida which will include some victim interviews. It might be appropriate to have a VS spend several days with the case team depending on the scheduled interviews.

TO DO:

[REDACTED] - Can I get answers to #1 and #2 early Monday.

1. Can you find out approximately how many image [REDACTED] thought might constitute CP? Are we talking less than 10? 100s? An estimate is fine.
2. Re the binders found in the closet....Were any of the names on the binders of MM based victims or were they only of the NY based victims? Were you able to tell where any of the images were shot? Do any of the images show JE touching the breasts of minors?
3. Please work with [REDACTED] to ensure a clear process is established to ensure all of the subpoenas, data returns, and analytical results of the financial analysis are included in the file.

I greatly appreciate everyone's support and work on this important case.
