Hi [REDACTED] - just touching base to make sure we're ready to go this morning. Can we have the prompt ready by 10am just to make sure it's working by 11? There is some concern from USAO that it's not going to work properly. We want to assure them everything is good.

Thanks so much!

Hello,

Thank you very much for the information below.

I've left a voicemail message for SOS [REDACTED], and will be happy to talk with her at her convenience.

We can limit the information requested to personal identifiers and nature of information to be reported. Is there a preferred script you would like the Threat Intake Examiners to follow?

It's my understanding that the press conference will be held on Monday, July 8, 2019 at 11am Eastern. It is expected that the 1-800 number will be released during that time and NTOC will be made aware that there may be an increase in calls from potential victims after that press release.

Calls to NTOC are recorded, and recordings can be requested through the SSA line below -- this is an internal line, not to be released to the public.

Once we get the details determined, we will distribute appropriate instructions to the TIEs.

Thank you,

Thanks for your help on this.

A couple things.....The Crisis Work tab in Sentinel has been added to the case. SOS [REDACTED] (cell phone [REDACTED]) will serve as our POC to monitor the incoming tip line reports. I'd appreciate it if you could have someone contact her so there isn't any confusion on navigating the Crisis Work tab and what to expect from your shop. Also, I'm not sure what your team normally collects but SDNY is concerned about doing interviews through the tip line. We should just limit it to getting personal identifiers (name, dob, contact information, etc.) and the nature of the information they want to report (victim, witness, etc.).

The case number and summary are as follows.

CASE:

Jeffrey Epstein - Subject

31E-NY-3027571

SUMMARY:

As alleged in the indictment, Jeffrey Epstein, with the help of other co-conspirators, engaged in various sex acts with dozens of victims between the age of 14 and 17. These acts occurred between 2002 and 2005 at his residences in New York City and West Palm Beach, Florida. We have reason to believe there are dozens of victims and the period of victimization extended beyond the 2002-2005 time period. It's likely the victims in this case are currently between their mid-20s to mid-30s. Additionally, due to Epstein's extreme wealth, we believe it's likely that numerous adult witnesses would have knowledge of the conspiracy.

Thanks again,

Michael
