██████████, thanks for the info. ██████████ meeting with the ADIC to do a quick prep tomorrow at 11. If you and ██████████ assuming ██████████ are free, that would be great if he has some questions. Please don't worry if you're not -
Thanks!

██████████

I think the cases you have highlighted are a good representation of what we do with the CEHTTF. The Dupigny case was spun off from the Hard Knock HT investigation, which is a large trafficking case with dozens of targets and strong cross-programmatic ties to gangs. Obviously there are the high profile cases like Epstein and NEXIVM he could talk about as well. I would be happy to bring one of my SAs over to meet with the ADIC prior if he has questions about the program.

Thanks,

██████████

[REDACTED], [REDACTED] - we are starting a new monthly podcast with a radio station, featuring longer form conversations with the ADIC. The first topic they asked us to cover is human trafficking. The ADIC has a pretty good handle on a lot of the information, but wanted to get him some examples of recent cases. I've pasted below links to three recent cases - are there any more you think would be worth highlighting. Time frame I think would be last four months or so. Also - anything new you are seeing? I'm going to ask the reporter to stay away from asking about stats specifically to a time range, but she may ask if we're seeing an increase.

Thanks so much - happy to provide more detail about the format. He will do the interview on Friday.

Appreciate the help -
