Subject: RE: Jeffrey Epstein island search UPDATE

Date: Tue, 06 Aug 2019 14:49:24 +0000

Importance: Normal

For everyone's SA. I received a call this morning from SDNY advising that they're drafting the affidavit for the search of LSJ Island and are reaching out to the USAO to coordinate getting it sworn out this week (likely Thursday). At 11:00 today, I'm meeting with my team here in NY to sketch out a plan.

[Redacted] and [Redacted]

I was thinking that we could talk through the plan with you guys early this afternoon and then once we all agree, we can begin to execute. Does 1:30 work? If not, let us know and we'll make ourselves available.

[Redacted]

Let us know if you want someone from CID on the call.

More at COB
Thanks

Subject: RE: Jeffrey Epstein island search UPDATE

For everyone's SA.

- NY has a planned conference call with SDNY on Tuesday to discuss probable cause re Little St. James (LSJ) island. The results of that meeting will be significant re the scope and timing of a search.
- I had a good call with [Redacted] and [Redacted] this morning. CBP has agreed to support re transportation between St. Thomas and LSJ. We just need to provide specs on the anticipated weight of equipment and number of people. Once we get into next week, we'll address the personnel count. [Redacted] thoughts on equipment weight? It's likely a standard search so we'll have paper, boxes, tape, digital evidence, cameras, other small misc items...and the water. But, I don't anticipate heavy containers/equipment. Are we missing anything here?
- [Redacted] team has a very good relationship with the hotel industry and has engaged Marriott so we shouldn't have a problem with lodging. [Redacted] is still working to determine if we have USG lodging available on St. Thomas. NOTE: Due to the hurricane, the options on St. Thomas are still very limited.

- [REDACTED] warned us about the need to prepare for the intense heat and humidity. We'll be searching indoors so that will provide significant relief but we'll anticipate moving significant cases of water from St. Thomas to LSJ.

We'll give update after the Tuesday meeting.

Thanks again to [REDACTED] for the help.
Michael

It was nice to talk to you. We will provide as much assistance as needed. I am copying [REDACTED] who oversees the STT and STX islands as well as [REDACTED] who is our VCAC PCOR is [REDACTED] and [REDACTED] who covers the islands. [REDACTED] will be covering for me in the next two weeks. He will make sure to serve as a POC and coordinate with [REDACTED], [REDACTED] and our LEO partners such as CBP and USCG. I will be in Quantico thus available via phone or email.

Regards,

[REDACTED]

[REDACTED],
Following up on our discussion yesterday. As noted, we are working to secure PC on a search warrant for Jeffrey Epstein's island near St. Thomas. We are still in discussions with the AUSAs but we believe it's likely to happen in the next 30 days. Our position is obviously the sooner the better. I'll detail a general plan below but please understand everything will be contingent upon the warrant timing and named items to be seized. Also, we recognize this is your AOR and [REDACTED] has final say on the plan so we look forward to working with you to finalize it. I expect this to be a substantial op for the Bu but also don't want to negatively impact your normal operations.

FYSA, the warrant we had for Epstein's residence in NYC was just for pictures and proof of residency but when we cleared the location we immediately observed things that gave us PC to conduct a complete search. We took 845 pictures and spent 13 hours to execute the search.

Re the island search warrant: We feel confident our warrant will be for a full search and are planning accordingly. Everything about this case is such a circus so I'm hoping to get in and out as quickly as possible. Based on a Google image of the island, it appears as though there are between 15 -20 buildings on the island. I discussed the following plan with [REDACTED] who concurred with the framework.

[REDACTED]
