Subject: Re: USA vs. Jeffrey Epstein, Esquire and related matters (Obstruction by way of geospatial Brain Computer Interface Screws using a form of a lottery by way of Wikipedia Definition Pages and what is a way for those connected to the case such as MOB Rule and the MAFIA to obstruct the entire case using G-Israel Bayesian Beta Matrix Lynx Systems that is a "Forward System and a way to damage

evidence by connecting it to Wikipedia and then to the LDS Amen Holy See System that is powered by your DNA Score and using nuclear proliferation.

Wendy,

YOU should also know that they're using other covert methods such as connections to the victim's community and what some would classify as clean entities. They're connected to ICONIC Brands and their re sellers, Precious Life Shelter and Thrift in Los Alamitos, CA, Mottivation by Chris John Mott based out of Colorado and infiltrating all things including their churches, so as to stop their victims from gaining Fed and law enforcement support. It's a mafia money racketeering system. They're trying to destroy my very name and presence. They're using Facebook and Facebook Artificial Intelligence systems that once the page is clicked upon they insert a "Chinese star" that destroys everything in your life and cell phone. It's also a form of hate for countries such as Israel although the system is G-Israeli called GAD/NAD/Waxie or something like that. They're also using the Cypress 24-Hour Fitness and their large TV Screens and TV Screens everywhere to watch people and have been known to call it an "internment camp." They've hacked the data systems at the 24-hour fitness and have some of their team members they call "regime members" there casing the place stirring chaos and trouble for their victims in their community as another layer of hate and hush strategy. There are approximately 7 of them there. They're using a man to hack as well and he's connected to this group of men and to Chris John Mott of MOTTivation, and his name is Kristopher McCarthy, whom resides at 2972 Salmon Avenue, Los Alamitos, CA 90720. You will want to investigate Mr. McCarthy as this man will shed light on what I'm telling you and you will then have access to political figures and otherwise involved in your case. They use second layer of defense systems such as Anonymous Regime Hackers and Relativity Systems that are a form of a prediction system and a world cruise control similar to Moroccan/Jordan/British Monarchy Systems.

They're using other systems such as a "remote neural monitoring system" to watch and malign and to learn of your next move. They're watching the prosecutors upon very large screens similar to the Movie called MANNIX and then sabotage the evidence and try to limit all of those whom are prosecuted. They're perverting justice all over the place and, I'm sharing this with you so that you're aware and that it stops. They're calling this a WAR FERSAL/Federal Extersal because they're saying they want WAR because some of their families were maligned with cases and malicious felonies so they hacked the court and brains and use the Remote Neural so as to sabotage cases and evidence.

Sincerely,

Okeisha L. Austin

Good morning [REDACTED]

I have evidence that may support the case(s) connected to Jeffrey Epstein and the related matters all connected to a dirty group of people that I came into contact with in a natural way by of employment at Del Richardson and Associates, Inc. (aka DRA, Inc.) with my former boss being Delbra Richardson Price the biological Aunt of Russell Simmons of Def Comedy Jame and his connection to some such as Michael "MJ" Gottlieb of Hustle Branding, Inc. in New York (aka Surge Branding Partners/33-Voices located in San Diego, CA/Soul Cycle in New York/Sirim Radio in New York/Shark Tank) and to Daymond John of the Shark Tank when I was personally selected and then invited to a VIP Event that I later discover as being a private book signing of Daymond's Power of Broke book vis a vis a scavenger hunt. They selected mostly everyone one from their personal Facebook Pages then requested their URL's and built an algorithm from this linking it to a racketeering system for money and encoded your page, cell phone, and laptops, and cable TV Systems with this same algorithm to spy and learn of your innovations, inventions, and then ordered magazines in your

name using their personal credit cards and unlimited ads on YouTube and Pandora Radio to hide their crimes. They're also gaining support to hide their crimes from dirty people connected to the courts covertly believe it or not such as probation officers whom are married to those at ICE and abroad acting in the capacity of the Anonymous Hackers Regime violating their very public oaths for money and Hollywood and Political Access. They're depositing phishing cookies and spyware inside your Google Gmail Accounts against all of those whom are their victims such as I, Okeisha Austin, and then steering trouble using the "relativity systems" and the Wikipedia Definition Pages all powered by the Bayesian Relativity System that is a form of a lottery payment system by MOB Rule.

I worked at the Swamp or a version thereof whereby they conduct unlawful political stirs yet what is domestic terrorism and, worked for \$21.00 an hour as a single-mother and a Republican whom is also a Christian and was sexually harassed while working. This entire office is somehow connected to your case and to that of Sheriff Mike Corona whom I met once in a very organic way without providing any contact data.

It turns out that Daymond John and his co-conspirators were caught stealing and stalking and using the algorithm to turn people like myself into their "personal fish tanks" so that they could steal from them after attending their free events and then set in motion what they're calling a "Power Shift" using Daymond John's new book tour and what is very connected to the Wikipedia Page LOttery System they call a social justice movement but what is a way for those connected to your case to overcome their charges in a "STITCH FIX/Prosecutor's Conviction Oversight" using Freemason and Illuminati and the MOB Rule all connected covertly to dirty members of the court with the intentions of passing their charges to another or having the prosecutor look the other way. They're calling law enforcement against me after having been caught in the act of stealing and using this system and telling them lies to obstruct my entire life, block employment opportunities in all aspects as I'm seeking a position as a Right-of-Way Agent and Project Manager in Construction, and they're using Politicians from California and their "underground highway" to shift and purge members of congress and the Federal and State Courts and Politicians.

You should know that my former boss knows Barak Obama and was, per her mention, the only person allowed into Cuba during a ban/no fly zone so they have very significant connections yet are con artists at DRA, Inc.

They're seeking a ton of bounty fees through this unlawful social justice tour by Daymond John by geo targeting obstructing cases playing "Dawg the Bounty Hunter" and being very malicious deciding and playing GOD as to whom should live and whose names should be cleared. DRA, Inc. is also very connected to ponzi families schemes such as the Rothschild Family as their attorney's have defended the Rothschild Family and Astors and Bronson which makes it hard I'm sure to prosecute all involved yet, this time, they're stalking and stealing from a very innocent person such as I, Okeisha L. Austin, as I don't know any of them personally. I'm being stalked by people and they have me on a very unlawful "Geospatial Radiohead" that is a form of a geo targeting system connected to a platform similar to LINKEDIN and then to a magnetized system they call Federal Extersal/Fersal that I was told was a G-Israeli Bayesian Lynx System pulling certain people towards the "dragnet" based upon what they insert in the system.

Some of the names of the cases and surnames that may be linked are as follows:

1. Any and all cases involving Prophet Manasseh "Yakim" Jordan as he is connected to Reverend Joseph Simmons they call Rev. Run as the Jordan's mentored this Pastor and in New York City. They know Michael "MJ" Gottlieb and his family whom are connected to the Film Industry as well as Joshua and Jack Grapes.
2. USA vs. Aaron Gottlieb (NYC)
3. USA vs. Andrew Gottlieb (NYC)
4. USA vs. Eric BOyd
5. Dwight Shelton and JOseph Little and the scams connected to these Billionaires
6. USA vs. Neuvo Riche and the issues between Robert Snyder and his former business Partner. They've since that time opened a new version entitled Renuus LLC and, this scam is connected to this platform and

some members as well.

7. USA vs. Allen Johnson (Colorado)

8. This is also connected Word at the Ranch aka Elisha Mark Ministries in Laguna Nigel, CA with a man connected to JOhn Meloni-Minelli whom is connected to the Sherif Mike Conora matter and I met he and his wife at Church after attending a Monday Night Benny Hinn Prayer Meeting. Per the Chat Wire that is on based upon a bogus warrant that may be DEA Related yet I am not and would never be, this group of people are called the AUDI Regime or ALLY and are Italian as Sheriff Mike Corona is.

9. Was steered towards being a Juror on a case based out of Santa Ana Superior Court in the courtroom of Judge King in C45 and, it turns out it was an Italian Cruise Line and a Murder Case of a woman named MICKEY. Hustle Branding Inc. in New York is referred to as DISNEYLAND as is DRA, Inc. whom are said to be connected to this money scam and hate crime and Epstein and to the Sheriff Mike COrona case and to a Sheriff Reed based out of Orange County. Although I was not selected as a Juror, of which I am grateful for, I'm terrified as while I was getting to know Michael "MJ" Gottlieb a woman named LOIS on the Hustle Branding page mentioned to Michael "MJ" Gottlieb "Mickey loves you," then someone hacked all of my communications devices, created a large hate/HUSH Campaign against me, stolen all items after intruding into my devices against my will, set in motion the unlawful and forced Wikipedia Definition Page Lottery System, then inserted a very elaborate MOB RULE Brain Device they call Wikipedia Federal Extersal Screws using unlawful access to my DNA Score (Have a letter indicating that my DNA was and records were hacked by LABCORP. and from another private form that they would not have access to unless they were sold access or hacked it, yet I'm going say they paid for it considering whom they all are.) SO, they steered me towards being a juror while equipped with a hidden wire to listen in and then obstruct this case so as to tamper with the case and evidence and my very life.

10. USA vs. EVE Mazarella based out of San Diego, CA that apparently has connection to the MOB and Florida and then to Santa ANa.

11. You should know that Prophet Manasseh "Yakim" Jordan is connected and claims to be a Christian prophet yet he hacks into your devices, learns of your whereabouts, then sends you a prophecy and with the data he tells in the letters its very apparent that he is hacking using a wire and access to your communications devices and then by way of a computer program the MOB and FEDS and CIA have that is a form of a geospatial Brain Computer Interface pushing through evoked thoughts similar to those at the National Security Agency. The prophecies are based upon stalking and watching you. DRA, Inc. is also said to have a connection per their attorney to Spectrum Cable TV/Time Warner, so they will act as a Fake FBI Agent and watch you everywhere. This takes a very special personality and someone whom feels they can outpace the government and law enforcement, yet I'm holding you all in high esteem with the notion that you can stop this hate crime against I, Okeisha Lanett Austin, as it's all hate and a cover-up because they are stealing from those whom they invite to their free Book Signings and events, then try to use Barak Obama, to stop and hide their scams as Daymond John was the USA Business Entrepreneur under Barak Obama. They're also using MBK and 100 Black Men and G-Unit and Black Mormons and Church of Scientology and all things to stop 1 woman which is very weird.

12. They will steal from you, anonymize you and tell you all of their secrets so as to try to implicate you for their crimes, and then claim they have to "get ride of you and your family as you know too much. NOT very bright people at all as cases are public record and if you're smart enough you'll reach out to report this matter as it's all FRAUD they're involved in no matter what title they all hold.

Please report this to the Prosecutor, [REDACTED] or the actual prosecutor and Federal FBI Agents assigned to the Epstein and [REDACTED] and related matters, and report this to the CIA.

Sincerely

--
