Who's your PAO from New York? Can you have him contact San Juan's acting PAO, [REDACTED].

Yes. Room 340.

Chow will be on at 0600 if you want.

The folks going on the cbp or USCG boats can park at their vehicles at the national park service dock. I can lead them there. CBP was not comfortable picking folks up at the ferry dock due to all the commuter ferry traffic in and out. Not to mention it will draw a lot of attention.

Hey there ST folks,

Just to confirm, all going to the island park at the ferry.

Savage group can download gear at the American and walk over. Park service group will be ferried by ST RA to their loading dock.

Is there a problem with having cbp and uscg pick up at/ by the ferry to avoid going around?

Thanks,

Good idea. One issue I foresee is parking for the Sabrage group as there often isn't a lot of parking at AYH. I think the original plan was to park at the public ferry lot which is fine but the drivers will have to drop off the passengers and gear at AYH then go park then walk the block or so back to the AYH dock. New Yorkers should be used to that..

Note: To avoid confusion with using two separate docks, members of St Thomas can escort the teams to their respective docs.

**Subject:** Names for ops plan

So I think Sabrage will have to dock at American Yacht Harbor and CBP/USCG will launch from the National Park Service dock. See the attached map. We will just have to work out which agents are going on which vessels ahead of time.

10-4. We will make it happen.

They have a contact at red hook for their docking.

I'm fine with infil. CBP and USCG can shuttle forces off if Sabrage leaves.

Plane is in the air.

Sabarge is \$3800 now. We can use them for the infil bit I don't know how long they will be able to stay. I'll ask.

I'm not opposed to sabrage if that expedites infil. The quicker we get everyone on, the quicker we are done.

What's a good radio channel for us to use, we'll have a bunch of HTs coming down.

<[REDACTED]> wrote:

If you want I can talk with them to see where might work best. I think might be able to go through the terminal and load on the ferry dock if we grease the skids with the VIPA officer working that morning. Sabrage is out? Do we have any other private vessels or just CBP and Coast Guard?

Hi [REDACTED],

Parking is good at the ferry area. We located several loading points at the ferry but did not talk to marine folks yet. Wherever our boats pull up we will work with. Still on for 7 briefing as well.

Cheers,

Good morning folks. I understand we should hopefully be getting the warrant signed shortly. Is everything else on track for tomorrow morning? Still 7 am briefing at the hotel and meet the boats at 8 am in Red Hook? If so I just want to confirm we have a location in Red Hook for parking and boat pick up - Marine Terminal, American Yacht Harbor, etc?

Do you have an ops plan yet I can circulate to our folks, CBP and UDVG?
