We can make Friday work. We have two agents that will be able to be there. I can give you a call a little later to discuss more.

Hi [REDACTED] and [REDACTED],

Maxwell's attorneys have arranged with the MDC to have a room available for Maxwell to review the photos on the secure laptop this Friday 10/16 from 8am to 3pm. They are asking, though, for Maxwell to be permitted to review the laptop alone because they do not have an attorney available at that time to be present for the review. Their position is that Maxwell will be in a jail setting completely alone, so she cannot copy the photographs. Would you please let me know whether the FBI would permit Maxwell to review the laptop alone in a visitor room at the MDC? If not, we will need to be able to explain to Judge Nathan why that is not acceptable.

I tried calling both of you to discuss but didn't get an answer. Please give me a call when you have a minute to talk this through.

Thanks,
