I'm curious how she got citizenship in the U.S. – can we get a copy of her immigration file from ICE / DHS? And also can you please just let us know how we know she has UK and French citizenship? We'll eventually want to be able to source that info. Thanks!

Maxwell has citizenship in the US, UK, and France.

I'll double check on everything in the morning.

I apologize if you've already told us this, but did we ever track down the immigration / citizenship status of Maxwell in the U.S., and also whether she's a citizen of any other country (e.g., the UK, though possible others)? I need to include that information in our travel application, which we want to put in as early as tomorrow, so it's time-sensitive. Please let us know, thanks!
