I've attempted to contact Nancy Pelosi also. Maybe you could forward this to her. Or do with it what you need.

Hello Nancy,

I'm reaching out to you in frustration. I've been sex trafficked much of my life. Daily my PTSD unfolds more nightmarish memories. I was introduced to Jeffrey Epstein when I was 15. My sister in law was my connect to him and another girl my age.

This sister in law confronted me in 2015 asking who he is. Back then, I had no memory of him.....I do now. I have memories returning of being in North Korea at a hotel with Otto Wambier. I was being prostituted and starved then I had eaten some baked potatoes which I believe had been left in the oven for days. I kept burping and passing out. I was at the hotel where his tour group was the night before he was arrested. I have memories returning of Epstein, Trump and Stormy Daniels in Vail, Colorado. This stuff is sickening. I have memories of having sex with Prince Andrew.

2006-2010, I was being sex trafficked by Robert Allen Pullen [REDACTED] from St. Louis Principia private school. I met him in 1991 at Richard and Jana Trump's wedding.

Locally, it seems no one will help me pursue a sex trafficking case against my ex Patt Allen South,

EFTA00153585

who was the one who got me to those situations. It seems like everyone is dragging their feet so I can't be a part of this case.

I have such horrible PTSD. I need therapy and counseling but, I don't trust many.

You really need to speak with me about this matter. You need to look into all of their finances. I was introduced to "Tucker" aka Hunter Biden by Anthony Michaud in 2004. When if I remember right I was also being told about some petroleum company in Europe or Ukraine that somehow I owned was going to pay Hunter to be on an advisory board. Mmmmm. So, cartels, crime, and politicians all wash their money together?!?!

I said how can this be true? When I only make \$10.50 per hour?
