Dear [REDACTED],

[REDACTED] gave me your email. I have info on the Epstein case and am concerned for my safety. This is a photo I took of [REDACTED] at a beauty trade show where I was instrumental in launching the Billion Dollar industry in TWEEN Cosmetics. I have pictures names and dates confirming much of the allegation in this case.

I can't begin to express the burden but I fear for the safety of my family. Please help me, and the victims past present and future. I look forward to hearing from you at your earliest convenience.

Sincerely
