Subject: [EXTERNAL EMAIL] - Hard drives from Epstein device responsiveness review

Date: Wed, 12 May 2021 19:18:34 +0000

Importance: Normal

Hi Mandy,

Hope you are doing well. At the culmination of the massive search warrant responsiveness review from all of the Epstein devices in the fall, we gave you a box of hard drives which contained the original drives and some of our working drives which contained the images and videos we produced for Maxwell. Defense has some questions about the files we produced in discovery as a result of this review, so we are hoping that we could get that box back, at least for a few days, to check on some of the original files we marked as responsive. We don't have a good enough memory to know exactly which drives in that box are relevant to answering these questions, so if we could get the whole box back, that would be great, and it would be even greater to get it to us as soon as possible so we can work to resolve these discovery questions promptly.

Please let us know as soon as you can if/when we can get that box of hard drives back, and let us know if you need more info or if we can meet you somewhere convenient for you to retrieve them.

Thanks,
Sunny
