Hi [REDACTED] sorry for late text and this message . But I have a friend who was one of Epstein's victims also , [REDACTED] , after she got her claims settlement she never got any information on where to go or what to do such as trafficking organizations etc . I was just telling her about it all .. is there anyway that anyone in the bureau such as a victim specialist could help her ? She actually been getting robbed by many ppl ever since her story came out in the news , ppl assume she's rich just because she was on the news w Epstein case . Just this morning a guy stole her wallet and used her credit card , she's at the precinct waiting to see a detective . She's from [REDACTED] but a citizen here .

Hi [REDACTED] there is a victim specialist assigned to that case. Did she work with the FBI?

She said she worked with Gloria Allred and government attorneys
