

On 06/20/2021, at 9:06 p.m. Eastern Time, an anonymous caller (Anonymous), cellular telephone number [REDACTED], a therapist, called the FBI National Threat Operations Center (NTOC) to report information on a client of hers, identifiers unknown (the Victim), being trafficked her whole life.

Anonymous provided the following information:

Anonymous would not provide any information on the Victim or Subject(s) because the Victim is scared. The Victim has been trafficked since she was approximately five years old. When the Victim was five years old, a police officer, identifiers unknown, took his gun and raped her with it. Because of the rape with the pistol, the Victim does not trust the police and the police have always been a part of her trafficking. Between the ages of seven to nine years old and periodically as a teenager, the Victim was taken to Jeffrey Epstein. Elaine Maxwell was an active participant in the sexual abuse and sexual exploitation of her. The Victim is currently being stalked, beaten and abused by the man, identifiers unknown (UNSUB), who trafficked her, her whole life. UNSUB has beaten the Victim so badly her whole life, she has had to have multiple internal and external surgeries. Most of the surgeries have to do with her genitals and doctors have had to repair her genitals several times. If UNSUB finds out the Victim has reported anything to anyone, UNSUB will most likely leave her for dead because he has done it to her before.

Anonymous claimed she had "put two and two together" after watching the Epstein documentaries. Anonymous claimed the description of the house and fence were similar to the ones seen in the documentary. The Victim was too little to remember it was Epstein, along with other "big and powerful names" but has said the name Epstein and Maxwell before. Anonymous will not give out any information on anyone because the Victim is too scared and will run if someone tried to approach her over this matter. The Victim needs "any kind of safety" away from UNSUB to make her feel more secure and then she may be comfortable enough to give details and more information. Anonymous has been taking information from the Victim for approximately one year and nine months
