Can I call you later?

I'll text you the info.

Ok thanks

[REDACTED]

That's her email address. She knows you are going to email her and that you are good.

Ok another note, Several of [REDACTED] friends are turning on her because of this case. She wanted me to talk with you about some of these other people and what they are being told. We can chat later on that.

Much appreciated Thanks for that, and yes let's chat more later on that subject
