[REDACTED] JE's Assistant

Phone interview. The following is not verbatim, it is the sum and substance of the interview:

[REDACTED]

I was in my 20's when I worked for JE. I did not see anything. If there was anything bad going on I would not have worked there.

I worked with [REDACTED] the financial team, the lawyers, [REDACTED] [REDACTED] he was there the entire time I was there), and [REDACTED]

I took [REDACTED] position, I was JE's assistant for a few years. I left in 2000. My sister was the receptionist, I moved into the city, and they needed someone to fill in. I said yes because why not-free lunches. I was only working in NY.

My sister [REDACTED] went to New Mexico and ran Zorro. [REDACTED] worked in NY and then left. [REDACTED] and [REDACTED] were good friends but do not keep in touch.

The media is all wrong-if you google me it appears I lived all over the world according to the media. They said I was in the Virgin Islands, New Mexico. It is all false, total bullshit. I have 50 different addresses,

[REDACTED]

come on! Give me a break, this is all bullshit. [REDACTED]

[REDACTED] I never met [REDACTED] doesn't ring a bell.

[REDACTED] I knew her. She came to the office with her mother [REDACTED] I do not know where she lived. The whole family was musically inclined, very talented family. I thought he was helping her, not in a bad way, but he was a creative type and was helping her [REDACTED] and I went to the movies one time. [REDACTED] and I were close, and she was a musician-we would go out. JE would sponsor so many people and help them out in their education.

I don't recall who wrote checks in the office.

I see [REDACTED] is saying things about JE now that he was terrible. Well, she would show up back then at the office and look for money -he was not so terrible then- they were all so friendly. Everyone is making them out to be so bad-so many people benefitted from their generosity and kindness. They were wonderful to me. Look for money-financial things going on, he was sponsoring her because she was so talented. Ghislaine was a role model to me. I only saw kindness.

[REDACTED] and I were very close, and she was a musician, too.

**Office:** I was right next to his office. There were pass-through doors to all of the offices. When people visited they would come through my office. I was a receptionist for a bit and saw everything and heard everything. Doors were open. There were no hidden doors, if his door was closed I would knock but walk right in. I wouldn't wait for him to say come in.

Ghislaine was the same and the door was usually always open.

There is so much false information about them and stories about what was occurring.

JE was so nice, he actually asked me if I wanted to go back to college. He was interested in helping people better themselves.

[REDACTED] was close to the [REDACTED] much closer than I was to them.

I sat in the space right next to JE's office.

He would be by himself a lot of times in the office.

They were not joined at the hip (regarding the relationship between JE and GM); they did not always travel together, but there was a lot of traveling.

I sent him foods when he was away; yogurt and bread once to him in Russia. I did not send any gifts to anyone.

I don't know anything about shopper's travels.

I did not see any girls or girlfriends at the office-

**PRIVILEGED & CONFIDENTIAL**

---

[REDACTED] was very good friends with JE, she was not a girlfriend.

JE and [REDACTED] were good friends.

I have been to her house, [REDACTED] and I lived on [REDACTED] I was not working out of the office at JE's house. I was at 457 Madison the whole time.

[REDACTED] was after me.

**Duties:** taking messages, sending things to JE, organizing things, planning trips, saw everything. My sister and I would have never worked for people who were doing wrong things.
