That's very helpful, and thanks so much for looking into it. Really appreciate it!

Hey [REDACTED],

I'm not familiar with the format but my understanding was that it was an older program our Intel Analysts used. I'm waiting for one of our Intel Analysts to be available today to answer this question. I'll get back to you on that.

Hi [REDACTED],

I'm de duping some files for Maxwell 3500 production and have come across a folder of files with an ".anb" extension. Is this file type something either of you have experience with? Our IT folks say they are files made in some sort of IBM "analyst notebook" software. I'm still working on figuring out how to view it on our systems, but wanted to reach out to see if either of you had any experience with these types of files. Any info would be much appreciated. Thank you!
