Hi [REDACTED].

I'm not sure if you remember me but we spoke in 2020 regarding my experiences with Jeffrey Epstein. Since then, after various types and countless hours of therapy as well as going through the civil court process against his estate, I had been able to fill in some of the blanks (whether I wanted to or not).

At the time we last spoke I remembered seeing another man at Epstein's house the night I was raped but I was too scared to admit to myself, no less anyone else, any further details about that person. I do remember who that person is and if it helps I'd be willing to tell you at this point now that he no longer holds the position that he did when we last spoke. He didn't assault me but he did request to have me 'visit' with him (I just didn't know what that meant at the time). I'm not sure if it's helpful to any investigations for you to know.

Please let me know if you'd like to discuss further. I don't feel comfortable typing it. My cell is [REDACTED].

Thanks.

HELL again,

I've been having a really tough time since the last time we spoke. I'm not sure what resources, if any, that [REDACTED] might be able to assist me with, but I could use any help I can get right now.

Is there a way you can give me her contact info or ask her to reach out to me?

Thanks.

I'm just remembering some of the things that i said i would send you. Sorry for not doing that earlier.

I told you on the phone that I saw an article in the newspaper and I recognized the man in the photos as one of the men that were at the restaurant / club that night I first met Epstein. This is the article I was referring to: <https://nypost.com/2020/08/11/photos-show-maxwell-jean-luc-brunel-on-epsteins-pedophile-island/>. It was Jean-Luc Brunel that I recognized. A lot of time has gone by but when I saw his photo my heart almost leapt out of my chest.

Also, I told you there was a victim that really made a difference in my life. The truth is that there is probably more than one. But the first person that really spoke to me and made me come forward and finally admit all of the trauma that I faced was [REDACTED]. I would be very grateful if you could help assist with getting her my information or if it's easier / better option I can write her a letter. Additionally, [REDACTED] words

really meant a lot to me as well as [REDACTED]. My information is below. Please feel free to pass this along to any or all of the ladies listed above as well as whomever is representing them, etc. I just want to thank them if I can.

Lastly, I'm attaching a few photos of myself. Current and from when I was younger. I would appreciate it if you would compare them to see if there are photos of me that are part of evidence. However, I am adding my husband, [REDACTED], to this email chain as well. I'd appreciate it if you could let him know if you do find a photo of me that's part of evidence. This way we can make sure that I have the proper supports I might need to emotionally handle the answer when I'm told the truth. Also, a side note about this. I have a tattoo on my left side just underneath my breast. It consists of several star outlines with a shooting star going through them. I believe i got this after the encounter with Epstein but that time in my life is a bit of a blurr and it's possible I had it already when the photo was taken. I did get it either just before or just after the assault occurred. That may help when looking through the photos.

Thank you again.
