**Subject:** [EXTERNAL] Estate of Jeffrey Epstein

Dear [REDACTED],

I am following up on our conversation from earlier this week. As I mentioned, we represent Richard Kahn, one of the two co-executors of the estate of Jeffrey Epstein, and are hoping to gain access to one of the computers that was seized from Epstein's properties on the island known as Little St. James. The computer was an HP Slim Tower and was located in what was referred to as the "generator room." I don't have a serial number and am aware that there are more than one HP computer that was seized. But hopefully the location is enough to identify the relevant computer.

Thanks,
